

Trade Agreements Act (TAA)

Compliance statement

Introduction

TAA refers to the Trade Agreements Act (19 U.S.C. & 2501-2581). TAA compliance requires that products must be manufactured or substantially transformed in the United States or a TAA-designated country.

Products

This compliance statement applies to the following products and compatible add-ons:

3D printers	UltiMaker S3, UltiMaker S5, UltiMaker S6, UltiMaker S7, UltiMaker S8, UltiMaker 2+ Connect, UltiMaker Factor 4
Add-ons and accessories	Material Station, S series Air Manager, UltiMaker 2+ Connect Air Manager, Print cores

Compliance statement

The UltiMaker products listed above are designed in the Netherlands and are assembled and tested in the Netherlands. The address of UltiMaker's manufacturing location is listed below. The Netherlands is a TAA-designated country.

i Note: Until 2023, the UltiMaker 3D printers listed above for the US market were generally manufactured and assembled in the US. Since January 1, 2024, all the listed printers, add-ons, and accessories are exclusively manufactured in the Netherlands.

Responsibility

It is UltiMaker's responsibility to control and ensure that the above products are assembled in TAA-compliant countries. The validity of this compliance statement will be assessed regularly.

Address

UltiMaker's manufacturing facilities are located at the following address:
Unieweg 1, 5301 KS Zaltbommel, The Netherlands
